

SIKA AT WORK

BRASSERIE DUVEL MOORTGAT NV,
BREENDONK, BELGIUM

FLOORING: Sika® Ucrete® HF 100 RT

BUILDING TRUST

FLOOR RENOVATION

PROJECT DESCRIPTION

Project name: Brasserie Duvel Moortgat NV
Location: Breendonk
Size: 760m²

The history of Duvel Moortgat is a story of respect for tradition and family values. Today, the fourth generation of the Moortgat family oversees the legacy of their ancestors. Duvel Moortgat is an independent brewing group distinguished by its focus on specialty beers and premium brands.

PROJECT REQUIREMENTS

To ensure continuity of production, the coating requires resistance to high temperatures during cleaning (Cleaning in Place or CIP). The coating must also withstand cleaning agents and high mechanical loads. The mortar needs to be applied very quickly after application and must be applicable in humid environments.

SIKA SOLUTIONS

After removing the existing coating, we applied a fast-curing sloped floor onto which we poured Sika® Ucrete® HF 100 RT. This coating meets all the required conditions.

PROJECT PARTICIPANTS

Project Owner: Brasserie Duvel Moortgat NV
Applicator/Contractor: ISBA
