

PRODUCT DATA SHEET

Sikaplan®-1406 Connector

Connector for Sikaplan® Control Socket 14

DESCRIPTION

Sikaplan®-1406 Connector is a connecting element between Sikaplan® Control Sockets with a 14 mm socket diameter and Sikaplan® W Control Tupe PU 6 mm. It is made of polyoxymethylene (POM).

USES

The Product is used as a:

- Connector between Sikaplan® WP Control Socket 14 and Sikaplan® W Control Tube PU 6 mm
- Connector between Sikaplan® WT Control Socket 14 PE and Sikaplan® W Control Tube PU 6 mm

CHARACTERISTICS / ADVANTAGES

- Part of the complete waterproofing membrane system
- Compatible with all Sikaplan® control sockets with a 14 mm socket diameter
- Easy to apply

PRODUCT INFORMATION

Chemical base	POM
Packaging	10 pieces / bag
Shelf life	5 years from date of production
Storage conditions	The Product must be stored in original unopened and undamaged packaging in dry conditions.
Appearance / Colour	Colour <u>blue</u>
Diameter	14 mm / 6 mm

BASIS OF PRODUCT DATA

All technical data stated in this Product Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

ECOLOGY, HEALTH AND SAFETY

This product is an article as defined in article 3 of regulation (EC) No 1907/2006 (REACH). It contains no substances which are intended to be released from the article under normal or reasonably foreseeable conditions of use. A safety data sheet following article 31 of the same regulation is not needed to bring the product to the market, to transport or to use it. For safe use follow the instructions given in the product data sheet. Based on our current knowledge, this product does not contain SVHC (substances of very high concern) as listed in Annex XIV of the REACH regulation or on the candidate list published by the European Chemicals Agency in concentrations above 0,1 % (w/w).

APPLICATION INSTRUCTIONS

IMPORTANT

Strictly follow installation procedures

Strictly follow installation procedures as defined in Method Statements, application manuals and working instructions which must always be adjusted to the actual site conditions.

APPLICATION

The Product, as well as the parts connected to it, must be sound, clean and dry, free from all contaminants such as oils and grease, dust and loose or friable particles.

For waterproofing systems requiring air tight connections seal the connection between the Product and the control socket with a thread sealant. Contact Sika Technical Services for further details.

LOCAL RESTRICTIONS

Please note that as a result of specific local regulations the declared data for this product may vary from country to country. Please consult the local Product Data Sheet for the exact product data.

LEGAL NOTES

The information, and, in particular, the recommendations relating to the application and end-use of Sika products, are given in good faith based on Sika's current knowledge and experience of the products when properly stored, handled and applied under normal conditions in accordance with Sika's recommendations. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The user of the product must test the product's suitability for the intended application and purpose. Sika reserves the right to change the properties of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users must always refer to the most recent issue of the local Product Data Sheet for the product concerned, copies of which will be supplied on request.
